DETAILED ACTION

Examiner apologizes for the the inconvenience brought on by the new Restriction of 10-06-04. Examiner agrees with Applicant to prosecute claims 4-9, 13-15 as Group I.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 5 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 5 is unclear in that only 3 numbers are given in the ratio, however, there are 4 variables. If variable 'iv' is not included in the ratio of claim 5, then this should be clearly stated. "...wherein said ration of part a, (I,ii,iii) are...."

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting

Art Unit: 3723

directly or indirectly from an international application filed before November 29, 2000.

Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

Claims 4-9, 13-15 are rejected under 35 U.S.C. 102(e) as being anticipated by Mohr et al.-6,264,839.

Mohr discloses the claimed subject matter for use as detergents and water treatment agents. The use of the claimed treatment material is merely intended use and does not further limit the claimed 'treatment material'. (e.g. 'for use in a method...', 'for admixture with a paint...', 'for use with an encapsulant...') In addition, the preamble merely states that in the intended use for removing a coating, the coating has a 'hazardous metal or compound contained therein.' The compound is not necessarily hazardous. In more detail, Mohr et al. discloses a treatment material comprising an alkali metal or alkaline earth metal (abstract), potassium hydroxide (col. 3, line 35), up to 55% solvent, including water (col. 6, line 15), an alkali metal hydroxide (col. 7, line 19), calcium phosphat (col.7, line 41), alkali metal silicates (col. 13, line 51) and surfactants (col. 11, line 8).
